2. I have reviewed and understand the contents of the attached specification,
including the amended and unamended claims of the above-identified reissue application, and
also including new claims 10-44 concurrently filed herewith.

3. I verily believe myself to be the original, first and sole inventor of the invention
described and claimed in U.S. Letters Patent 5,983,225 for a PARAMETERIZED LOCK
MANAGEMENT SYSTEM AND METHOD FOR CONDITIONAL CONFLICT
SERIALIZABILITY OF TRANSACTIONS granted November 9, 1999 to myself and in the
foregoing specification for which invention I solicit a reissue patent including added Claims
10-44.

7. I believe that the original U.S. Letters Patent 5,983,225 to be wholly or partly inoperative or invalid, by reason of the patentee claiming more or less than he had a right to claim in the patent.

8. At least one error upon which reissue is based is a failure to recite in the claims a specific implementation such as the structure of and/or the relationships between data structures.

9. All errors being corrected in the present reissue application arose without any deceptive intent on my part or on the part of the assignee.

10. I believe that all claims in this application find full support in the original specification.
